OBJECTIVE

A third year Computer Science undergraduate student at University of California, Santa Cruz. I have interests in web development, software engineering, and game development but I am open to learning new skills to broaden my knowledge. I'm currently looking for a summer internship so I could interact with many other people that share the same passion in technology.

EDUCATION

Bachelor of Science, Computer Science
University of California, Santa Cruz, Santa Cruz, CA
Expected Graduation Date: June 2020
Related Coursework: Data Structures & Programming, Software Engineering, Programming Languages, Discrete Mathematics, Computer Networks, Compiler Design, Algorithm Analysis

COMPUTER SKILLS

Languages(Proficient): C++, Java, Unity, HTML, CSS, JavaScript, Latex
Microsoft Office 365, C sharp
Platforms & Frameworks: Unix, React, Bootstrap, Windows 10, macOS

PROJECTS

Pokedex
- Used the PokeAPI, React, JavaScript, Bootstrap, and CSS
- Creates a list of Pokemon and when you click on them, you could view there stats, type, and biography.

Weather-app
- Used HTML, CSS, and JavaScript
- Allows users to view the weather of each day of the week. Also allows the user to search cities to view the weather there as well

Personal Website
- Used HTML, JavaScript, CSS, and BootStrap
- A website that showcases my portfolio

Instagram clone
- An App made with React that allows users to upload pictures with captions, name, and profile picture.
- Utilizes apollo-boost, express.js, graphql, pusher, and http server.

EXPERIENCE

Sales Representative and Web Developer   From August 2014-July 2018
K and A Home Furnishings, Fairfield, CA
- Directed and contributed to deliveries that were handled by other sales staff
- Successfully increased sales by providing customers with excellent customer service
